

Order AULOPIFORMES

Telescopefishes

Family **GIGANTURIDAE**

Brauer 1906

First-published image of *Gigantura chuni*. Illustration by Fritz Winter. From: Brauer, A. 1906. Die Tiefsee-Fische. I. Systematischer Teil. In: C. Chun. Wissenschaftl. Ergebnisse der deutschen Tiefsee-Expedition "Valdivia,"1898-99. Jena. v. 15: 1–432, Pls. 1–18.

***Gigantura***

**Brauer 1901**

*giganteus* (L.), gigantic; *ura*, from *ourá* (Gr. οὐρά), tail, referring to greatly elongated, ribbon-like lower half of caudal fin, comprising half or more of body length

***Gigantura chuni* Brauer 1901** in honor of German marine biologist Carl Chun (1852–1914), who led the deep-sea *Valdivia* expedition during which holotype was collected

***Gigantura indica* Brauer 1901** *-ica* (L.), belonging to: Indian Ocean, type locality (but circumglobal in tropical and subtropical seas)
