Order SILURIFORMES

Ritas and Nanobagrids

Family RITIDAE

Bleeker 1862

Rito socerdotum. Illustration by Robert Mintern. From: Anderson, J. 1879. Anatomical and zoological researches: comprising an account of the zoological results of the two expeditions to western Yunnan in 1868 and 1875. London. vol. 1: i–xxv + 1–984 + [1]; vol. 2: Pls. 1–84. [Fishes are v. 1, pp. 861–869 (p. 862 blank) and v. 2, Pl. 79.]

Nanobagrus Mo 1991

nấnos (νᾶνος), dwarf or small, referring to size (up to 45 mm SL); bagrus, a bagrid catfish (originally placed in Bagridae)

Nanobagrus armatus (Vaillant 1902) Latin for armed with a weapon, referring to strong serrations on posterior edge of pectoral spines

Nanobagrus fuscus (Popta 1904) Latin for dark or dusky, referring to its brown, sometimes dark-brown, coloration, on body and fins

Nanobagrus immaculatus Ng 2008 im-, from in (L.), not; maculatus (L.), spotted, referring to its uniform dark coloration

Nanobagrus lemniscatus Ng 2010 Latin for adorned with ribbons, referring to broad cream bands that frequently encircle body

Nanobagrus lemniscatus, holotype, 21.4 mm SL. From: Ng, H. H. 2010. A new species of minature catfish from the Malay Peninsula (Teleostei: Bagridae: Nanobagrus). Zootaxa 2677: 60–68.

Nanobagrus nebulosus Ng & Tan 1999 Latin for cloudy, referring to cream-colored patches on body

Nanobagrus stellatus Tan & Ng 2000 Latin for studded with stars, referring to pattern of cream-colored spots on body

Nanobagrus torquatus Thomson, López, Hadiaty & Page 2008 Latin for collared or adorned with a necklace, referring to distinct band around body immediately posterior to head

Rita

Bleeker 1853

tautonymous with *Pimelodus rita* Hamilton 1822, local Bengali name for this species in India

Rita bakalu Lal, Dwivedi & Singh 2017 vernacular name for this catfish in Telangana and Andhra Pradesh states of Peninsular India, where it occurs

Rita chrysea Day 1877 from *chryseús* (Gr. χρυσεύς), golden-yellow, presumably referring to its "yellowish" coloration

Rita gogra (Sykes 1839) from *gograh*, Marathi vernacular for this species in India, which, as Sykes explained in 1841, he adopted "so that naturalists who travel the country can always obtain" the species

Rita kuturnee (Sykes 1839) Marathi vernacular for this species in India, which, as Sykes explained in 1841, he adopted "so that naturalists who travel the country can always obtain" the species¹

Rita macracanthus Ng 2004 macro-, from makrós (Gr. μακρός), long or large; acanthus (L.), from ákantha (Gr. ἄκανθα), thorn, referring to its relatively long dorsal- and pectoral-fin spines

Rita rita (Hamilton 1822) local Bengali name for this species in India

Rita sacerdotum Anderson 1879 genitive plural of sacerdos (L.), priests; along the Irawaddy River of Myanmar, "this fish is considered very sacred and is under royal protection, a mandate of the sovereign existing which makes the death of one of these fish by hook or by net a very serious offence, and fishing for 3 miles above and below the little island of Thingadaw is prohibited. The fish are daily fed by the priests who reside on the small rocky islet and also by passing devotees."

¹ Sykes, W. H. 1841. On the fishes of the Dukhun. Transactions of the Zoological Society of London 2 (art. 25): 349–378, Pls. 60–67.
