

Order MYLIOBATIFORMES

Panrays

Family ZANOBATIDAE

Fowler 1934

*Zanobatus schoenleinii*. From: Müller, J. and F. G. J. Henle. 1838–41. Systematische Beschreibung der Plagiostomen. Veit und Comp., Berlin. i–xxii + 1–200, 60 pls. [Pp. 1–28 published in 1838, reset pp. 27–28, 29–102 in 1839, i–xxii + 103–200 in 1841.]

**Zanobatus**

Garman 1913

*zano*, etymology not explained nor evident; *batus*, from *bátos* (Gr. βάτος) or *batís* (βατίς), a flat fish, usually applied to a skate or ray

***Zanobatus maculatus* Séret 2016** Latin for spotted, referring to its blotched color pattern

***Zanobatus schoenleinii* (Müller & Henle 1841)** in honor of Henle's friend and associate Johann Lucas Schönlein (1793–1864), German naturalist and professor of medicine, who supplied holotype from his anatomical museum in Berlin
